**Abbreviations / Key:**
- **Reflexes:**
  - 4+ = Very brisk, hyperactive
  - 3+ = Brisker than average
  - 2+ = Average, normal
  - 1+ = Diminished
  - 0 = No response
- **Breath Sounds:**
  - CL = Clear
  - CR = Crackles
  - D = Diminished
  - W = Wheezes
  - A = Absent
- **Fetal Monitor Mode:**
  - A = Auscultation (fetoscope)
  - D = Doppler
  - E = External (Ultrasound)
  - I = Internal (Scalp Electrode)
- **Variability:**
  - O = Absent, undetectable
  - 1 = Minimal, ≤ 5 bpm
  - 2 = Moderate, 6 – 25 bpm
  - 3 = Marked, more than 25 bpm
- **Accelerations:**
  - + = Present
  - - = Absent
  - P = Prolonged
- **Decelerations:**
  - E = Early
  - L = Late
  - V = Variable
  - P = Prolonged
- **%FSpO2:** Percent oxygen saturation recorded by fetal pulse oximeter
  (If IUPC, record MVUs)
- **Quality:**
  - Mi = Mild
  - Mod = Moderate
  - Str = Strong
- **Uterine Monitor Mode:**
  - P = Palpation
  - E = External
  - I = Internal
- **Resting Tone:**
  - T = Tender
  - S = Soft
  - F = Firm
- **Vaginal Discharge:**
  - NS = Normal Show
  - BLD = Bloody
  - CL = Clear Fluid
  - MEC = Meconium
  - FS = Foul Smelling
  - * = Other, See notes

**Patient Identification**
